Introducing UNIVERSAL PHILATELIC AUCTIONS Setting New Standards

A POSTAL AUCTION WITH NO BUYER'S PREMIUM, NO EXTRA VAT OR HIDDEN EXTRAS AND GUARANTEED

Dear Collector or Dealer,

How did I reach the age of 59 without being aware (as my wife pointed out), of the existence of Benjamin Britten's 'The King's Stamp' composition celebrating the 1935 Silver Jubilee "watershed" work for Britten, the start of his contract with the General Post Office (GPO) to produce music for their films? I wish the Royal Mail would take a leaf out of 'Britten's Book' and commission some music today.

It's a delightful disciplined short piece which I am listening to as I write, which seems most appropriate as upon the front cover of UPA auction #52 we offer two rarities – the world famous Prussian Blue – an enticing unmounted mint certificated example, plus no less than one of the world's rarest post WWII stamps – an unmounted mint certificated example of the Gandhi 10R "Service" – only the 12th example authenticated by the BPA (2013) and apparently only the 3rd UM NH example known. The last example of this stamp realised approximately GBP £140,000 including buyer's premium. As you know UPA has NO Buyer's Premium – so this wonderful rarity will save the successful bidder no less than up to £25,000 unless the winner decides to bid higher fully aware that there is no extra to pay! You can watch this stamp being auctioned on line. Don't worry you can't inadvertently 'scratch your nose' and win it!!

Now, to return to the real world, what happened in UPA #51? Plenty, to be precise. We sold more than ever before to a record 1,700 different bidders from all over the world. Incredible thank you. However, success creates its own problems, 500 of you telephoned UPA within the first few days of the phone lines being switched back on. Probably half of you wished to give us your credit card details. Unlike other auctions - UPA does not penalise you by charging for use of your card being submitted after the auction ... but if you could let us know beforehand what a difference this would make. Imagine, it is impossible for two people to do anything but pick up the phone and put it down again ... a tag team so that our despatch team can get on with the job of picking lots, preparing, despatching up to 1,500 packages all over the world. Additionally 300 of you had sent us e-mails by then ...

Many of you are so kind and supportive – you ask us how do we manage to create such a monster catalogue each quarter? I don't know (as I write at midnight), but it is a wonderful piece of team-work ... and each person is a vital cog in that team. An amazing group of committed (!) people.

A gentleman collector from Germany telephoned us in response to finding a stamp in the mixture lots for which we offered a free 1d black to the most interesting find / story. It was a lovely story that the stamp found reminded the collector of visiting his first stamp shop with a friend some seventy years ago. It reminded me of our collector who saved up 10 shillings to buy his first 1d black some 55 years ago, and of my standing outside David Lawes stamp shop in Montpelier, Harrogate gazing in awe 50 years ago at the Congo Red Cross set of 4 stamps mint – it was hard to imagine what Country / history lay behind those stamps. Of course the stamp shop is long gone, but philately beckoned – and so too today, Betty's world famous 'Tea Shoppe' only 100 yards away. A free 1d black will be sent to Germany.

So what is there in store for you in UPA #52. Even without the £100,000 Gandhi rarity it is our most valuable auction yet. Almost £1.3 million worth of stamps, many unrepeatable, offered with no buyer's premium and all guaranteed. We've continued our successful 'BABS' system but there is no point in sending in bid forms for 700 different lots at 1p each ! Not a single 'BABS' lot was sold for less than £1!! ... so in order to manage the extra 1,000's of bids created by 'BABS' no bid below 99p will be entered.

The team, my wife and I, hope you will enjoy this auction as much as we enjoyed creating it. Happy Hunting to a brighter philatelic future.

From all of us, may we wish you a Very Happy Christmas and a prosperous New Year,

Confidence:

WHAT DIFFERENTIATES UPA FROM OTHER POSTAL AUCTIONS?

As far as bidding is concerned there are NO differences from accepted practice of the best of other postal auctions. You can bid with total confidence NOW without reading on or making use of the following collector-friendly features.

Value:

UPA UNIQUE FEATURES: SETTING NEW STANDARDS FOR THE 21st CENTURY

1. The most IMPORTANT advantage is that by keeping the catalogues you will discover exactly what each stamp is really worth.

Transparency:

HOW THE SYSTEM WORKS

2. For reasons best known to themselves (probably to disguise what isn't selling), most postal auctions don't print previous sale price realisations in their next catalogues. UPA WILL PRINT ACTUAL PRICES REALISED FOR SALE, #1 IN #2, ETC. In this way you discover NOT ONLY what individual sets and singles really sell for (regardless of catalogue value) **BUT ALSO...**

Enhanced Value:

UPA REDUCING ESTIMATES SYSTEM

3. **IF AN ITEM DOES NOT SELL IN SALE #1 WE WILL RE-OFFER IT IN SALE #2 AND REDUCE THE ESTIMATE BY 10% – ad infinitum!** – so that after 5 sales a less than HALF PRICE BID may succeed, and because reserves are 80% of estimates you could buy at just 46% of estimate and a mere fraction of catalogue price.

Unique Bargains: BUT HOW LONG DARE YOU WAIT!

HERE IS HOW IT WORKS

EXAMPLE: £100 lot (reserve £80), unsold once new estimate £90 (reserve £72)
twice unsold new estimate £80 (reserve £64); three times unsold estimate £72 (reserve £58),
four times unsold estimate £65 (reserve £52); five times unsold estimate £58 (reserve £46).
a Bid of £46 at 80% reserve – if no other bids – SUCCEEDS ! (N.B. estimates may be reduced by larger than 10% increments after several times unsold.)
After some 8 to 10 times unsold you could probably BID ZERO AND HAVE A VERY GOOD CHANCE OF BUYING IT FOR NOTHING! **Of course the risk is** that the longer you hold out for an item you want some other collector may step in and buy it before you! After all we do want to stay in business.

BUT HOW DO I KEEP TRACK OF AN UNSOLD?

4. That's EASY – because we will IDENTIFY an unsold for you in the description from the second time it's offered – the description will say **US** for UNSOLD, US2 for twice unsold, etc. The estimate will be automatically reduced each time.
5. YOUR CATALOGUE WILL BUILD INTO AN ESSENTIAL REAL PRICE GUIDE – keep it and build a small expandable database of what stamps are REALLY WORTH. Information is king!

Fair bid steps policy = more buying power

6. FANCY PAYING 10% TOO MUCH? NO, nor do we. Have you seen what other auctions bid steps are ? 10% IN MANY CASES. No problem when you bid £10, the next step is £1 more – but fancy being made to increase your bid from £250 to £275, particularly when the stamp is only worth £260 to you – or worse still £1000, next bid £1100. And what happens if somebody else has bid £1100 – you have to pay £1200! **LUDICROUS!** UPA's fair bid policy gives you a maximum £10 bidding increment on any lot over £300 and £5 bid steps from £85 to £300. So that at the high end you aren't penalised – even at £1000 the next bid is £1010, not £1100. Result: INCREASED BUYING POWER WITH UPA.

Fixed delivery cost and FREE Insurance

7. POSTAGE, PACKING AND INSURANCE. A jungle at some auctions, a lottery at others. This is the ONLY additional charge when bidding at UPA – which we have fixed and standardised so you know EXACTLY what the delivery cost is EVEN BEFORE PLACING A BID, WHEREVER YOU LIVE, (please see below for details). **Insurance against loss in transit is FREE*.**

SUCCESSFUL BIDDING IS SAFE AND EASY AT UNIVERSAL PHILATELIC AUCTIONS

HOW TO BID:

1. Simply pick any lots that interest you and enter on the POSTAL BID FORM (**located inside back cover**) the maximum amount you are prepared to pay. Upon those you are the highest bidder, you will be successful.

2. BID ON AS MANY LOTS AS YOU WANT AND **LIMIT YOUR TOTAL EXPENDITURE.** Using the LIMIT box on the bid form ensures maximum chance of success. Combine with STAGGERED PAYMENT SERVICE (£60+) for maximum purchasing power INTEREST FREE.

3. By **PLACING A LIMIT BID** you can LIST THE LOTS in order of your preference in any sequence instead of numerical order. This service is ideal for making the most of a limited budget and costs you nothing more.

4. We regret we cannot service LIMIT BID FORMS for less than £60. If you want to spend less please enter your bids as normal. Please remember that the only extra added to your purchases is the delivery charge.

5. The Auctioneer will bid on your behalf free of charge and buy at the lowest possible price, subject only to other bids received or reserves, at one bidding step above the second highest bid.

6. Bids below 80% of ESTIMATE ARE RESPECTFULLY DECLINED.

7. In no circumstances will confidential bids be disclosed to third parties.

8. "BUY" BIDS ARE NOT ACCEPTED as this is unfair to other bidders. If you are prepared to pay a multiple of the estimate price for a particularly rare item please enter your maximum price – but beware another bidder may recognise special value in the same item – so please only enter the maximum you are prepared to pay.

9. Unsuccessful bidders will be notified AFTER all lots have been despatched.

10. Please remember that UPA is an auction not an Approvals Service. The auctioneer reserves the right to refuse bids from clients regularly treating UPA as an Approvals Service. The auctioneer's decision is final. Placing a bid is acceptance of these terms. This does not affect your 30 day NO QUIBBLE full refund guarantee.

FAIR BIDDING STEPS POLICY

Up to £39 in £1 steps

£40 to £79 in £2 steps

£80 to £299 in £5 steps

£300 upwards in £10 steps

Bids in pence will be disregarded

ESTIMATES

1. Estimates are based upon condition and current market value. If you are keen to win an item for your collection we suggest you bid Estimate or over. The winning bid may still be below estimate depending upon other bids received. It does not necessarily mean you will pay more – rather it enhances your chance of success.

2. All estimates and catalogue prices are in £s Sterling and all catalogue prices are S.G. unless otherwise stated. We will state where another catalogue is used and if a foreign currency will show the value in Pounds Sterling equivalent.

REALISATIONS

The realisations list will be printed in the next catalogue. Telephone enquiries gladly answered from the Monday morning following the sale close.

CATALOGUES

1. Catalogues are FREE to regular successful bidders. They will "build" into an important source of accurate price data.

2. If yours is a NEW contact/enquiry you will receive the first CURRENT catalogue and the NEXT catalogue FREE OF CHARGE. If you have NOT bid in either YOU WILL NOT RECEIVE a third catalogue unless you SUBSCRIBE.

3. SUBSCRIPTIONS: £20 IS THE MINIMUM subscription covering supply of the next 3 catalogues wherever you live, despatched airmail if overseas.

4. Our catalogue policy is to "reward" regular clients with an important real price reference guide.

VIEWING

1. We do not offer POSTAL VIEWING as we offer an unequivocal NO QUIBBLE full refund guarantee, provided only that lots are returned promptly and in the same condition as despatched.

2. Photocopy service is available at 20p per copy + postage. Last date for photocopies 4 days before the sale closes. We cannot photocopy 100s of items!

3. You are welcome to phone and ask a describer to call you back with a verbal description with the item in front of him or her so that they can answer any specific enquiry you may have. Please be very careful to give your full telephone number with code and Lot Nos. on the answerphone. Limit 10 verbal descriptions per enquiry.

PAYMENT

1. NO LOTS are despatched until payment is received.

2. Payment is due upon receipt of our invoice.

3. For fastest despatch we recommend payment by VISA or MASTERCARD ONLY (No surcharge payable in our auctions.) We particularly recommend this to our overseas clients as it is cheaper and quicker than obtaining bank drafts and the bank automatically converts your invoiced amount charged into your own currency.

4. Clients enclosing a signed blank U.K. Sterling cheque payable to UNIVERSAL PHILATELIC AUCTIONS and dated for the day of the auction, endorsed "NOT TO EXCEED XXXX POUNDS STERLING" should allow for appropriate postage cost for delivery (see Delivery for fixed charges) in order to receive prompt delivery. Cheques from clients not known to us will be cleared first. Unsuccessful bidders cheques will be defaced and returned.

5. Overseas clients may remit by bankers draft, drawn on a UK clearing bank in Pounds Sterling ONLY. US$ cheques can be accepted but may take 28 days to clear. We regret no other currencies are accepted.

STAGGERED PAYMENT SERVICE

6. STAGGERED PAYMENT SERVICE is offered to clients making total purchases of £60 upwards and is ideal for LIMIT BIDDERS. There is NO EXTRA CHARGE for this service but lots are only despatched upon completion of payment or subject to status (i.e. long established UPA client.) To participate you MUST ADVISE US UPON YOUR BID FORM and enclose three signed cheques with your bid form dated at monthly intervals, the first for AUCTION DAY, for total purchases up to £250 (over £250, four equal cheques accepted.) ALTERNATIVELY please instruct us to charge your Mastercard/Visa.

7. We also accept payment by bank transfer – details are…

UPA Postal Auction #52
UPA Bespoke

Dear Collector or Dealer,

You may have seen our recent advertisements offering a 'UPA Bespoke' selling service to owners of large / valuable collections. Already larger more valuable items are arriving for sale through our auctions, and you will start to see the benefit of increased diversity and of more valuable lots being offered.

You will also experience something rather unusual – in that UPA will probably be the only large UK auction house offering such lots without the 'buyer's premium' so prevalent in other auctions – saving bidders up to 25% and allowing vendors' pockets to benefit.

Some of these vendors have wished to see increased use of the internet in obtaining World-wide exposure for their stamps. In fact without offering such a service, it is unlikely that we would have secured these vendors. They would naturally gravitate towards the famous name public auction rooms with their buyer's premiums of up to 25% or more, in order to (theoretically) obtain more 'International Exposure'. In order to offer you this 'ground-breaking' calibre of world class material without buyer's premium we have therefore linked up with 'www.the-saleroom.com'....

BUT rest assured, live internet bidding will only take place on very valuable lots – **JUST 80 LOTS IN THIS AUCTION QUALIFY FOR LIVE INTERNET BIDDING.** In fact we worked it out, if every lot was offered 'live' on the internet and we managed to sell 100 lots an hour, with 22,798 lots the auction would take over 228 hours – an incredible 9+ days non-stop which would surely qualify for the Guinness Book of Records (if the size of this auction does not qualify already!). So, in this auction, the following **80 lots ONLY** will be offered upon the internet 24 hours after our normal Tuesday 7th January 2014 closing date of this auction.

You can still bid normally on these by post, fax, email, online bid form and telephone before the 5pm (UK time) Tuesday 7th January 2014 deadline. Your bids will be confidential so that a live internet bidder will be bidding against bids which are on the book. Your bids will not be used as a starting price unless another bid just below your bid occasioned this.

Live Internet Bidding is available upon the following 80 lots only:

Please go to our website (**www.upastampauctions.co.uk**) by 5pm Tuesday 7th January 2014 if you wish to register to bid 'live' upon these lots 24 hours later and view/bid on-line via **www.the-saleroom.com.** In fact you might wish to take a look – you don't need to register to view – and you'll see 'yours truly' auctioning these 80 lots just like an auctioneer on television but on your computer screen at 5pm (UK time) on Wednesday 8th January. There will be NO other participants in the room – just UPA – and your (conventionally) placed confidential bids with the auctioneer, or you can register to participate. We'd be delighted to have your help in making this ground-breaking concept a success so that you can win more world-class material without paying buyer's premiums.

22,718 lots are for sale in the NORMAL UPA Postal Auction way

Please Bid Early and enjoy the auction – all lots 100% No Quibble Guarantee and No Buyer's Premium. NB, please note the LIVE BIDDING SERVICE on £1,000+ lots is COMMISSION FREE for this auction! Live bidders and normal bidders pay nothing extra except P&P.

Welcome to our 52ND UPA Auction

If you choose to bid you'll be joining 1,700 collectors and some dealers who participated in UPA # 51. Perhaps understandably with all that competition you may be wondering if there is any point in bidding? The answer is an undeniable **YES** – and the reason why is because with so much for you to choose from an incredible 90% of collectors bidding at UPA are successful! That's an amazing statistic isn't it? Your bidding at UPA, benefitting from ZERO buyer's premium and 100% satisfaction guarantee, you are more likely to be successful than in most other major auctions. Please start looking now – you'll be spoilt for choice with almost 3,000 pictures and 22,798 lots to choose from.

New Services / Notes:
Please refer to the page following photo-plate 64 for details of the new Shipping Service of heavy lots to Overseas Bidders and for our new 'Bag a Bargain System' (BABS).

Revision to 'BABS' System: We received literally thousands of 'penny' bids upon the circa 1,200 'BABS' qualifying lots in UPA #51. Thank you. However the only problem was that whilst 1,000's of penny bids were received, hundreds of you kindly supported BABS - with bids that actually reflected these lots still held value to you. The outcome was that many 1,000's of penny bids were entered and painstakingly processed in order for us to learn that apart from a few bid errors you generally valued such lots in excess of £1 each, furthermore many realised far, far more! Consequently no bid below 99p will be entered upon any BABS lot in this and future auctions, this will ensure 1,000's of ineffective bids will not be entered, saving crucial administration time.

BABS Notes: Effectively you cleared the auction of a residual 1,200 low price / value lots which had built up over a period. 579 more reducing estimate lots have broken into 'BABS' territory this auction. We hope you enjoy locating and bidding on them – but please do not bid below 99p as this will not be entered ... you've told us that they are worth at least £1 each upwards!

BABS Caution! : Please ensure you do not enter bid steps on BABS lots unless you wish to. Collectors bidding 10p with 3 minimum bid steps of £1 on all of their lots inadvertently ended up paying more than 10p and winning lots for more than their intended bid – until we cancelled selling those lots to them.

Credit cards: Unlike other major stamp auctions – UPA continues a policy of **NO extra charge** for use of Mastercard or Visa whatsoever – however clients notifying us after the auction – due to the immense number of bidders we regret our staff can no longer divert their attention from despatching lots to other pre-paid clients to locate your lots and send them in the first despatch week. Post auction credit card submissions are your privilege and willingly offered as a client service / point of contact – but invoices may be processed and lots despatched in the second despatch week out of sheer time necessity.

Telephone Calls after the auction:
Due to the incredible number of telephone calls we receive after the auction – all of which are welcomed but interrupt our team striving to pack 1,500 parcels and despatch your winnings to you – we are forced to limit telephone calls during the first despatch week – so that we can also answer the 300 e-mails that have arrived by the time the telephones start to ring ... we've created a monster auction, we have to admit it takes some handling – please bear with us while we strive to produce our best for you.

First Despatch week:

MONDAY 13th January ⇢ FRIDAY 17th January
Telephone Hours: 11 a.m. to 1 p.m. 2 p.m. to 5 p.m.

Second Despatch week:

MONDAY 20th January ⇢ FRIDAY 24th January

Here are a few thoughts, tips and suggestions which may assist old and new friends to improve their bidding success and experience with UPA:

- Perhaps the first thing to understand is that unlike a conventional auction, because UPA auctions are processed upon computer – you can enter your bids in any sequence so that if you are on a 'budget' your top priority becomes your first lot to bid on and so on. So you can bid on lot # 20,000 first and lot # 2 second and any sequence. State your 'limit' on your bid form and UPA will stop purchasing for you the moment that your spending limit has been reached.
- We strongly recommend clients on a budget to bid on more lots in their order of priority and enter their 'spend' limit. So often collectors say "if only I had known this".
- Either / or bids are welcomed ... just enter the first lot and your maximum bid on one line (maximum only utilised if other underbids necessitate) ... enter 'OR' on the next line and the alternative lot and amount bid on the following line. If you wish 'bracket' the 3 lines and write in the office column '1 lot only'.
- Note – often the second 'or' lot sells for less than the first. You could bid on the later lot 1st and the earlier lot # 2nd.
- Bid Steps: Many clients bid exactly the amount of the estimate. In the event that equal bids are received, the lot sells for that amount to the earliest equal bidder.
- When you receive your results if the lot sold for the same amount as you bid it will have been sold to the earlier bidder for the amount you bid (a tied bid).
- You can do two things to increase your chance of success: bid more (naturally) and use 'break a tie' increments on your bid form by selecting 1, 2 or 3 'bid steps' increments.
- So many collectors bid 'round' amounts. Avoid bidding figures such as £10, £50, £100 ... use tie breakings 'bid steps' or bid an extra 5% or more for greater chance of success.
- Sometimes you ask us about the 'Gallery'. The Gallery is a blend of late and additional high value lots. We cross reference the 'main' catalogue to advise when more material from a country / area is presented in the Gallery.
- We all make mistakes. Mistakes are not penalised at UPA.
- Above All – Please Enjoy Your UPA Auction as much as we do creating it.

Just a few words from our clients:

"I love receiving my UPA catalogue. I'm like a kiddie in a sweetshop"

"No buyer's premium makes it so much easier for bidders especially when you have good material"

"It takes me 24 hours to read it"

"I read my UPA catalogue in the bath"!

GENERAL

Lot No	Cat No	Description	Estimate
1		INDIA - EMPIRE period 1882 to Independence, then through to 2008. The 61 Volume collection carefully collated and annotated upon collector produced, attractive coloured designed leaves, a life-time collection created over a period of some 60 years and believed to catalogue well in excess of £100,000 SG although this is not guaranteed. A remarkable mint and used collection almost noted by the absence of highly catalogued high values ... but 'majoring' upon 'up and coming' aspects of Indian Philately being the study of shades, types, postmarks and inverted watermarks and in the more recent material significant quantity of post 1980 issues in unmounted mint condition (includes some used) which are undoubtedly grossly undercatalogued due to there being, in our opinion and others in the trade, a notable absence of stocks on the market. The period from the early 1980's in a sense pre-dates the emergence of India as one of the most powerful 'BRIC' economies so that material from this period was overlooked and neglected when issued. It is hard to find this material being offered for sale on the internet in any depth - for example we note the scarce 1994 Endangered Water Birds se-tenant blocks of 4 x 4 mint + quantity mint pairs/singles, FDC x3 (withdrawn shortly after issue due to the use of 'water-soluble ink' in error) and an example of the withdrawn 2005 Guru Granth Sahib miniature sheet + a 'single', 1994 Baroda Museum 1 sheet of 18 pairs (SG catalogue £90) + another 14 mint pairs, 2005 Letter Boxes miniature sheet mint x 32 SG catalogue £2.25 (only 200,000 issued (Source: Phila India Catalogue 2008). Mint India post 1980 may be an area for the speculator, but the collection also exhibits strength in SERVICE issues - 10 Volumes from QV onwards, definitives: 25 Volumes from QV onwards incl later defin 'cylinders', commemoratives: x 21 Volumes mint/used, plus a volume each of 1929 Airmails, 1935 SJ (extraordinary MINT multiples noted), 1946 Victory, 1949 Archaeological, 1955 5 Year Plan. The first such collection of this depth seen in 30 years, this is the ONLY lot in this auction which may be physically viewed at our premises by prior appointment only by suitably qualified viewers and is not returnable. Extended payment facility may be considered. Delivery anywhere in the world at buyer's expense, UK delivery standard £7.50 includes insurance. Many thousands. Once in a lifetime ...- **US2**	**£14098**
2		MONACO 4 VOLUME COLLECTION: 1969 to 1993, an exceptional almost all mint collection very complete to 1979, sparser thereafter through to 1993 + some empty following year leaves begging completion, housed in 4 very clean excellent condition Hingeless Davo Albums (+ protective slip cases showing some wear) current retail cost for albums alone circa £580 .... Generally exceptionally lightly hinged sets to late 1970's, mainly unmounted mint thereafter, pre late 70's a charming mainly lightly hinged well filled collection with high degree of completion which should not require too much work to bring near to completion. Includes various sets pre-cancels, dues ranges and range of miniature sheets but not Red Cross. Pre 1920 range probably 'catalogues' several £1,000 including badly damaged SG10 5fr carmine/green used (£2,500) but otherwise a charming original collection of these beautifully designed and engraved issues offered intact as received and worthy of continuation. Many 100's (4Volumes). **US2**	**£1370**

123		Thematic - FUNGI collection - By volume the only larger thematic collection we have handled in recent years was the 'Icarus' 81 volume collection of 'birds' which 'broke' to over £35,000 of estimates - by size this collection runs an impressive second. All World Fungi collection with significant depth in Eastern Eoropean material and an absolute fortune expended upon mainly mint Russian Federation material - but we are not just talking relatively modern - perhaps up to the very late 90's - but the collection spans some 50 years with massive numbers of pre-sorted/ arranged covers and cards and a boxful of unsorted 'Fungi'/miscellaneous material. We count some 17 'foolscap' size box-files - mainly well filled + a further 13 stockbooks of assorted sizes. We observe some items that may be scarce - but only a 'fungi' specialist will really know. We were informed £4,000 in terms of replacement value for this collection and we could imagine it being more. This is a VERY HEAVY collection - we can ship it anywhere in the world - but please ask cost before bidding .... UK bidders delivery by courier is the standard £7.50. We would estimate 4 to 5 good size boxes, includes Domfil Fungi catalogue 2nd edition. Any extra information required - please enquire. We must be talking 1,000's and 1,000's of stamps/items. **US5**	£1196

Important New Services

Please help us trial these important new services if they are relevant to you:

Overseas Clients:

An increasing number of collector clients situated overseas contact us each auction to ask if we will ship heavy lots to them if they are prepared to pay the uplift in shipping costs.

Our despatch system has been upgraded to accommodate / facilitate such requests so that if you are prepared to pay the difference between our standard shipping charge for any lots marked 'heavy – UK bidders only' or similar ... please place your bids. Overseas clients placing bids upon such lots will be deemed to have accepted this. If this arrangement continues we will revise wording upon such heavy lots to warn overseas bidders that such lots carry an increased cost of delivery to their country. Such increase will always be at actual cost.

Unsold Lots: US5, US6, or higher US + estimated £10 or less

New - Bag Yourself an Extra Bargain System (BABS)

We have calculated that by the time a lot has gone unsold sufficient times to become a US5 or over and has an estimate of £10 or LESS that it is cheaper for us to sell such lots at whatever is the highest bid (a step above an underbid) you are prepared to pay rather than continue with the cost of re-offering them – literally from 1p upwards. It is doubtful that many US lots estimated £10 or LESS will actually be sold for 1p – but they will if nobody else bids against you. Our computer programme has been modified so that any bid below the usual 80% reserve level will be accepted provided only that the lot is an US5 or higher US and is estimated at £10 or LESS. We encourage collectors to bag themselves a bargain provided only that the lot is an US5 or higher US and is estimated at £10 or LESS – bid any amount from 1p upwards but please remember this is still an auction and other collectors are looking to bag themselves a bargain too!

Nb. Please note that any US5 or higher US lot estimated in excess of £10 has the standard 80% of estimate reserve which covers ALL other lots in this auction.

BABS only applies to US5, US6 or higher US lots estimated £10 or lower, thank you.

Revision to 'BABS' System: We received literally thousands of 'penny' bids upon the circa 1,200 'BABS' qualifying lots in UPA #51. Thank you. However the only problem was that whilst 1,000's of penny bids were received, hundreds of you kindly supported BABS - with bids that actually reflected these lots still held value to you. The outcome was that many 1,000's of penny bids were entered and painstakingly processed in order for us to learn that apart from a few bid errors you generally valued such lots in excess of £1 each, furthermore many realised far, far more! Consequently no bid below 99p will be entered upon any BABS lot in this and future auctions, this will ensure 1,000's of ineffective bids will not be entered, saving crucial administration time.

BABS Notes: Effectively you cleared the auction of a residual 1,200 low price / value lots which had built up over a period. 579 more reducing estimate lots have broken into 'BABS' territory this auction. We hope you enjoy locating and bidding on them – but please do not bid below 99p as this will not be entered ... you've told us that they are worth at least £1 each upwards!

BABS Caution!: Please ensure you do not enter bid steps on BABS lots unless you wish to. Collectors bidding 10p with 3 minimum bid steps of £1 on all of their lots inadvertently ended up paying more than 10p and winning lots for more than their intended bid – until we cancelled selling those lots to them.

Mini-Tip #26: Hinging Matters: New Issues

In an effort to insert a little levity into us shareholders in raincoat manufacturers - aka 'anoraks' (!) I'll be interspersing our heavy-weight 'tips' series with shorter lighter more frequent philatelic "Mini-Tips", "Stamp-Stories", "Market-Matters". Here's the first 'Hinging' mini-tip:

NEVER hinge unmounted mint stamps. You may think that this is blindingly obvious but probably once a month we see 'New Issues' which have been stuck in with stamp hinges ....

ALSO .... earlier MINT stamps - once or more 'previously hinged' becomes increasingly acceptable the older the stamp is ... but please don't add more hinging to previously hinged mint stamps ... it only lowers desirability and therefore value.

USE .... Prinz / Hawid style mounts, they are worth it. Prinz are clearer than Hawid, we see more stamps damaged by use of 'wrap-around split-back' mounts than conventional open top mounts.

Generally USED stamps are what stamp hinges are for.

Catalogue Value: Part 1 - What is it ?

Summary Tip #23: Catalogue Value: What is it?

Dear Collector,

As part of our continuing series which can be accessed from our website, please find Summary Tip #23 published here.

In a previous Stamp Tips of the Trade (#7) we touched upon "Catalogue Prices: Common Misconceptions" - today I am revisiting this area as it is such an important part of our weekly work.

A new client telephoned our office a few days ago saying that he found catalogue values "confusing" and asked if we could explain the relationship between catalogue value and "real" value? What followed was a long telephone conversation so as soon as we can we'll put together a 'tutorial' video upon our website; meanwhile, ***please bear with me while I establish some 'basics' upon which we can expand and discuss. The more I think about it the less I can ever recall reading an expose of this nebulous subject.***

What follows is based upon 45 years personal philatelic experience of which almost 40 years are full time in the trade.

Some collectors will be aware that different catalogue publishers dominate in different countries ... so that for example everybody in the UK and globally most stamp collectors will have heard of Stanley Gibbons (SG). Stanley Gibbons are large enough to publish catalogues of all stamp issuing countries and of all 'dead' countries that historically issued stamps but no longer do so.

Theoretically 'Michel' of Germany would be Stanley Gibbons biggest stamp catalogue publisher competitor ... were it not for the 'English' speaking world - the fact that everything is published in German. To be fair Michel does produce a good translation document but Michel is not that user friendly for English speaking collectors unless those collectors are sufficiently committed to work through the language / euro price barrier where they are often rewarded by useful additional information such as quantities of stamps issued / printed which can be very interesting indeed.

In the USA 'Scott' catalogue publishers dominate. Naturally they are in 'American' English with values in US$ and cents. Like Michel they produce good catalogs ...

There are other publishers too. Yvert is big in France, Sassone in Italy and there are others for Scandinavia, Benelux, Spain and many more specialist catalogues besides.

The important thing to realise is that 'home' markets generally use 'home' catalogues ... so that few specialist collectors of German stamps in Germany are going to use Stanley Gibbons (SG) specialist Germany Catalogue - they all use their Michel Germany Specialised Catalogue which is far more detailed than the Stanley Gibbons Germany specialised (which to be fair is more than adequate for us). When collectors quote 'Michel' prices and numbers to us - we know what they are and mean ... but most of our collector buyers of the stamps of Germany use SG. This is further complicated by sometimes wildly differing catalogue values caused by specialism and even the current rate of exchange.

So if you live in the UK you are likely to use SG catalogues for virtually all countries of the world (please remember our previous conversation that Stanley Gibbons Stamps Of The world (STOW) catalogue is too simplified for 'classic' issues collecting and we do not recommend be purchased for such - generally you need their specialist catalogues for pre 1952 material).

Some catalogues transcend markets ... so that for example if you are a dedicated collector of British Empire and you live in the USA - sure you can use Scott .... but the SG (nickname 'Part 1') 1840 > 1970 Commonwealth and Empire is a far superior catalogue ... whereas few self-respecting collectors of US material living in the USA are going to be buying the SG USA catalogue.

In short specialised home market catalogues are almost invariably superior when home produced. For example if you collect specialised GB then there is no contest - SG 'Red' specialised catalogues are the best as no other is so comprehensive.

A whole article just to establish a few home truths, but one important point emerges - if you wish, for example, to sell your Germany stamp collection in Germany then by all means catalogue in 'Michel euros' - but if your collection is not that specialised and you may be selling your Germany in the UK then identify and price in SG £'s ... (or of course you can do both).

In my next article we'll discuss the relationship between catalogue prices / catalogue values and real values based upon an understanding of the catalogue publishers which is what we wanted to discuss in the first place ....

Happy collecting from us all,
Andrew
