A POSTAL AUCTION WITH NO BUYER'S PREMIUM, NO EXTRA VAT OR HIDDEN EXTRAS AND ALL LOTS GUARANTEED

Who would have thought?

Dear Very Important Philatelist (UPA V.I.P.),

It doesn't matter which trade, every trade/sector has its own issues.

Two years in the planning, 25+ years ago, when I contacted auction houses worldwide to absorb/research how they addressed stamp trading/philatelic issues – who would have thought that there were none! That's right, you heard it ... there were no issues, and the only 'issue' detected over the 1st 15 years of questions I asked other dealers and auctioneers were that if they could locate the right stamps at the right prices... then they could sell them! Nobody not even once asked me the same question back, which may be part of the reason some are no longer with us.

In a nutshell, that's the reason why we created our unique 'ramped' reducing-reserves system, in combination with never charging a buyer's premium 'written in stone'. Research (and common sense) indicated that if you, the collector, win stamps to the value of precisely £100=, naturally you are not going to be amused to receive an invoice for the sum of £130+/- including 'Buyer's Premium', shipping, insurance (and taxes could even push this further)!

Then, hearing atrocious tales of collectors being 'hit' by caveat emptor (buyer beware, no right to return), we added our 100% no quibble 30-day guarantee into the equation. Trade talk revealed other auctions experiencing 10% returns, historically UPA returns, including 'I regret I have that stamp already in my collection (!)' are less than 1% of lots sold, sometimes nearer to ½ of 1%. However, the highest value item refunded for over the course of 25 years was £4,000.00 (ouch!). We estimate that our no quibble guarantee has increased sales by at least 10%. 10% extra sales against less than 1% returns is a 'no-brainer', so why don't others follow.

We spend more on marketing internationally than most dealers sell in a year, creating, in my opinion, the second largest philatelic database aside of SG, of 69,000+ different collectors including some dealers from 58 countries.

Interestingly, I believe that the 1st £55 FREE offer has made UPA. I wondered if we could afford to do it ... but repeated loyal client bidding soon made it clear that rather than being expensive giving something valuable attracted valuable clients. I estimate that we have given half a million pounds of stamps away, along the way. Thank you! The 1st £55 Free offer continues. Occasionally new collector clients have bid without

being aware of this Introductory Offer. Paying by credit card, imagine their surprise to find that £55 Free has automatically been deducted from their invoice?!

From conception in Market Harborough, inception in Helensburgh (Scotland), we could hardly believe the support, 650 different collectors bid in UPA1, which from memory offered some 6,000 lots. It took my wife and I 6 weeks to post all lots to winning bidders. For the 2nd auction I drove down to the local post office and politely asked the counter clerk if she knew of anybody who could help, and so Louise (who drove into our garden gate) volunteered who helped us for 20 years, even after we moved south.

Would you believe 27 of those 1st 650 bidders who bid in UPA99 are still with us as this catalogue lands. We have added a surprise auction-credit in the sum of £50 to each of those loyal supporters with our grateful thanks.

However, our sincere thanks go to you all, because the real reason why we have been able to offer and achieve so much is a product of 'scale'. When precisely 1,400 different collectors, from 41 different countries bid in UPA99 – some 67 totally NEW clients, plus a further 74 returning clients who have not bid for a year... we know that Philately is far from being a dead hobby but has rather become a niche classic pastime to the aficionados.

Who would have thought that by reaching the big 100 auctions, UPA has survived recessions, financial crises, covid, and loss of wonderful staff, but none of this would have been possible without YOU. Thank you, and it would have been even more impossible without our loyal Team, some of whom have been loyally working with UPA for up to 25 years (although the record is more than 30 years). A huge thank you to them.

No, we're not stopping, which you can surely tell by the fabulous variety of even rare material presented in UPA100. Keep bidding. And especially at this time of year, please accept our heartfelt thanks to you all. Onwards and upwards.

... and the UPA Team

Dedicated to De-mystifying Philately

Andrew's Ramble: Consistent Collecting

Now is a good time of year to re-examine your collecting strategy. Consider that piecemeal collections rarely command good realisations, and if the component parts are essentially low value stamps, then anybody else interested may/will have those stamps already. Relieve pressure on your wallet by converting redundant collections you never look at into 'auction-credit'. Increasing numbers of collectors do this. The largest single auction-credit we have offered, and which was accepted is £10,000=. Within a few auctions the collector had spent it! Don't hesitate! Start now

THE UPA REDUCING ESTIMATE SYSTEM

• Each auction is a compilation of both high and lower value material, with some of the high value material owned by vendors and some by UPA. Our belief is that if an item is not selling, it is too expensive. This formula permits us to offer the Unique UPA Reducing Estimate System so that if an item does not sell, it will be reoffered in the next catalogue with the estimate reduced by 11%, and the item will be flagged to show that it has been previously unsold.

• Each time that item does not sell, it will be reoffered and the estimate will reduce by 11%, then 12%, 13%, 14% etc. This allows items to find their own market value, e.g....

• A lot is offered for the first time with an estimate of £100, but it does not sell.

• The lot is reoffered in the next auction with an estimate of £89, but it does not sell.

• The lot is reoffered in the next auction with an estimate of £78, but it does not sell.

• The lot is reoffered in the next auction with an estimate of £67, etc....

(Estimate reductions are 'ramped' as above as each time a lot is unsold).

• Bids below 80% of estimate have no chance of success.

• After the auction has closed, on the Friday evening we publish the UNSOLDS list of all lots that may be purchased at 80% of estimate.

• Lots that are previously unsold are denoted US at the end of the description, e.g. US - previously unsold US2 - previously unsold twice US3 - previous unsold three times etc.

• Once a lot has been unsold five times or more and if the estimate has fallen to £20 or less, that lot drops into the BABS category (see below).

BABS: BAG A BARGAIN SYSTEM

• BABS lots are those items which have been unsold 5 times or more (marked US5, US6 etc.) and have estimates of £20 or less.

• BABS lots are denoted by (B) at the end of the description.

• These lots start at 99p and you can bid any amount you wish, at or above this level.

• Standard bid steps (tie-breaks) apply to BABS lots so if you do not wish bid steps to apply to BABS lots, please indicate this clearly on your bid form.

BID AMOUNTS

• We do not accept BUY bids as this is unfair to other bidders.

• If you are prepared to pay a multiple of the estimate price for a particularly rare item please enter your maximum price, but beware that another bidder may also recognise special value in the same item and bid accordingly. We therefore recommend that you only enter the maximum you are prepared to pay.

• You can bid any amount you choose, subject to the minimum amounts:

- Non-BABS lots: minimum bid 80% of estimate
- BABS lots: minimum bid 99p

• Conditional (either/or) bids are accepted - please clearly denote this on your bid form.

• Bids steps (up to 3) can be used to increase your bid in the event that equal bids are received (the early bidder wins a tied bid). Bid step increments are subject to your bid value - see HOW TO COMPLETE YOUR BID FORM (page 296) for full details.

• Please do not state bid an extra X% - please bid in actual GBP amounts, or use bid steps if you prefer.

• Bids must be placed in GBP.

ESTIMATES

• Estimates are based upon condition and current market value.

• All estimates and catalogue prices are in £ GBP and all catalogue prices are S.G. unless otherwise stated.

• We will state where another catalogue is used and if a foreign currency, we will show the value in Pounds Sterling equivalent.

• All non BABS lots: **bids below 80% estimate will be respectfully declined. Bidders wishing to purchase such lots for less may have the opportunity to do so in subsequent auction(s).**

BUYER'S PREMIUM - there isn't one! If you are a new client, you may qualify for our Introductory Offer* (£55 GBP discount if you spend/win £75 GBP or more)

*Offer valid for NEW Collector clients aged 18+. Offer subject to status and restricted to one per household.

Postal Auction UPA100

Live Bidding - Wednesday 7th January, 5pm

The majority of lots in our auctions are owned by UPA, but a little while ago we introduced our **UPA Vendor** service whereby we will offer to sell more valuable items for vendors on a commission basis. Some of these vendors requested increased use of the internet for greater exposure, and in order to accommodate vendor requirements, we are offering **LIVE INTERNET BIDDING** on the following **246 LOTS** listed below.

You can still bid normally on these lots by post, fax, email, online and telephone before the 5pm (UK time) Tuesday 6th January deadline. Your bids will be confidential so that a **live** internet bidder will be bidding against bids which are on the book.

GREAT BRITAIN - COVERS			
20697		1679 INCREDIBLE handwritten letter in French by KING CHARLES II to his cousin LOUIS XIV*, signed 'Charles R', written "At Whitehall, 20th of June 1679". *The content of the letter seems to be a request from Charles II for safe refuge on behalf of one Sir Stanford. Given that Charles II and King Louis XIV of France were first cousins, it stands to reason that the anonymous 'mon cousin' is indeed the king of France, who would have had the power to grant sanctuary to a person non grata. Charles describes Stanford as being a Roman Catholic (England was hostile to Catholicism at the time, while France was predominantly Roman Catholic). In 1670, the secret Treaty of Dover was signed between Charles II and Louis XIV, in which Charles promised military and diplomatic aid to France in exchange for his public conversion to Catholicism. The letter's contents are therefore of great historic relevance - worthy of being displayed in a museum! Some water staining and strengthened at top, a most attractive important historical document. Believed to be 100% genuine. Written translation accompanies (AI-assisted translation, copyedited in-house). {C} PH Plate 77	£2000

DO YOU 'APPROVE?'

You may not know it but 47 years ago, as a teenager, I received stamps sent 'on approval' from Omniphil. 17 years later in the mid-1980's I bought the company and added Avon Approvals (and mixtures) to make one of the biggest 'stamps on approval' businesses today in the UK... 1,000,000+ stamps, 7,000+ stamp books in our library, all for your choice

If you're looking for general or single country selections of individually / unit priced stamps sent to you upon approval – so that you select those you want and return those you don't want... If you can spend an average of £20 upwards per selection sent, you'll receive a very generous discount towards the cost of your returning approval books back to Sue and Pat who run our Tewkesbury Approvals Office. To join our 'Approvals' Club simply tell Pat what countries / subjects you collect and whether you collect mint & or used... STOP/Start Service any time...

GENERAL - REVENUES			
123		1860-1935 We frequently see the more common India Revenues - but we rarely see such a diverse well-filled Revenues Collection as this including obviously better/scarcer material with Telegraphs now listed by SG, Forest Department, Foreign Bill etc. We're not going to say too much about this collection because you may wish to acquire the Barefoot Commonwealth Revenues catalogue - (out of print - a new edition is expected at some stage when we enquired about a year ago) ... however, there's editions available from second-hand sellers and reams of material/information online ... so if you are looking for something unusual to form/continue your collection - look no further because 'Revenues' have become highly collectable over the past 20 years doubtless due in part to John Barefoot. 100's (ONE large stockbook) HEAVY/OVERSIZE LOT - OVERSEAS SHIPPING SURCHARGE APPLIES {R} US3 (PH online image)	£920

GENERAL - THEMATICS			
125		1960- LOADED with several hundred mainly different Miniature Sheets, this Stockbook reminds me of when we started TUT ... which must now be some 7 years and nudging £1 MILLION pounds worth of sales to collectors ago! Thanks to collectors like you Top-UpTwenty (TUT) is incredibly successful: Some of the very 1st TUT lots sold comprised thematics ... I thought they may stumble ... but they all flew. Here we present a similar blend of thematics... but this time ALL/Any subjects and though mainly mint with mainly modest/light duplication, some used souvenir sheets intervene. Very Colourful, distinct potential for resale here ... and probably substantial original cost. Some faults - but generally clean and attractive. Probably in excess of 300 items with good resale potential. I doubt we may experience similar for some years to come. (One large Stockbook). 1231	55b	1879 WESTERN AUSTRALIA 1864-1879 2d. ERROR OF COLOUR in MAUVE watermark crown CC (reversed), perf 12.5, lovely bright shade example significantly well-cancelled by flattering '6' numeral of Albany in blue. Research reveals this to be one of the finest examples of this early British Empire 'bird' classic error of colour, near perfectly centred too. History: apparently resulting from a use of the wrong (2d.) plate during printing of a supply of the Swan 6d. Value. The mistake was not noticed by De La Rue, and an estimated 8-10 sheets were issued in January 1879, with usage recorded at Perth and a few other offices including our Albany cancelled example. So far as is known this was the only occasion upon which DLR made such an error of printing Colonial stamps of any country, if Tobago SG 24c is excluded. 1994 highly respected PETER HOLCOMBE EXPERT colour photo-certificate accompanies, plus provenance expert signed reverse. Peter states 'A fine copy of a rare stamp'. We agree. CLASSIC SWAN Colour ERROR doubtless missing from most BIRD's collections! One of the finest examples extant. Holcombe Certificate. Exhibition Standard. Previous sale of a different example some years ago, it is believed a similar but inferior quality example realised near full current SG catalogue value. LUXUS According to the record of The Royal Philatelic Collection Curated by Sir John Wilson Bart (Dropmore Published 1952) King Charles possesses one example of the Swan 1879 2d. ERROR OF COLOUR in MAUVE, however an image of the quality of the Royal Collection stamp is not published. For reference, we have included an example of the original perf 12½ 2d yellow – so you can compare what should have happened. Cat. £15000 {U} US3 PH Plate 2	£6780

With x 5 generally well-filled albums, we can't promise but all appears to be u.m. throughout - though many have selvedged folded behind ... if we owned them we would probably remount them ... but hardly any appear to be damaged ... and online research advises that some of these SELL well ... there's many many hundreds and they appear to sell for up to £2.75p each online at eBay ... with the bookful of pack 'Editions' some sell for up to £20 each. Apparently high total face value too with many stamps face value 45p+ each Euro equivalent value. Many 100's including the marken value packs sheetlets of 8. 8941	8-12a B566a	1847 Plate 77 isn't just host to the UK's most valuable stamp - the perforate 1d. Red plate 77 which even recently realises £400,000 to £500,000, but unbeknown to many collectors the IMPERFORATE Plate 77 1d. Red is also host to the World's FIRST MAJOR STAMP ERROR - the SG listed 'B' BLANK 'A' mentioned in the SG GB Concise below SG12, and catalogued in the revised SG Line-Engraved Specialised Catalogued at £22,000. In 50 years full-time trading we have only handled this stamp three times - the 1st being in 1980 when we sold an example for GBP£2,250= (a lot of money in those days), the 2nd time being some 4 or 5 years ago, we sold a more heavily cancelled four margin example, with a less clear lower half for nearer £15,000. This is hardly surprising when only 28 examples have been recorded. Literally years go by and sometimes decades before we see another. Naturally King Charles holds an example in the Royal Collection, and doubtless institutional collections such as the British Library will hold others. These days part of the passion in philately is the almost universal interest in STAMP ERRORS, and we stand to be corrected but we believe the 'B' BLANK 'A' to be the world's FIRST MAJOR PHILATELIC ERROR, aided and abetted by the fact that most stamp issuing countries had not even issued a stamp until, for example, France two years later in 1849! Imperforate 1d. Reds were 1st issued printed from 1d. Black plates in 1841, and it was not until 1847 when the 1st 1d. Red Plate 77 was produced from which this rare example comes. It is recorded that the error 'no letter A in right corner' was due to the omission to insert this letter on stamp B A of Plate 77. The error was discovered some months after the plate was registered and was then corrected. Interestingly SG Specialised Catalogue adds that Plate 77 was registered on 19th April 1847 but probably was not put to press until early December 1847. The plate had a short life: SG Specialised continues [the plate was probably taken from press mid-August 1848 and was destroyed 2nd December 1848. Importantly] on 5 January 1848, Edwin Hill wrote to the printers Perkins, Bacon Ltd noting that the letter A of BA had been omitted and asked for this to be inserted and a fresh Imprimatur sheet to be printed. The letter A was inserted and the plate re-registered on 12 January 1848 – which may account for relatively few B BLANKS issued in the first place and so few survivors extant today. A fine used example for this from Die 1, touched at left, crucially with good clear margins where it counts, with the clearest VOID A corner that a collector could desire. Reverse hinge trace, no faults, plus clear 'AFTER CONSULTATION' 2022 Royal Philatelic Society London (RPSL) photo certificate of authenticity signed stating genuine with no observations. Once in most philatelic lifetimes. Fine colour, clearest VOID A 'B' BLANK we have rarely(!) offered. As you may have determined, one of my favourite stamps, only 28 examples recorded since 1847: how few may exist today (1v. 9760	316 M50(2)	1911 NEW WATERMARK DISCOVERY: KEVII Somerset House Printing 2s.6d. Excellent Dull Reddish Purple colour well-centred fractionally E. v.f. mint slight hinge full original gum - lovely example. Reverse: review of the Anchor watermark discovery ... it is significantly mis-positioned to West but there is additional presently unidentified 'manuscript' style watermark to East. The obvious conclusion this example comes from the first row to the left-hand side (as viewed from the front). Still viewing from the front, the sheet was printed mispositioned with Anchor watermarks significantly to the right - so far over that the watermark plate inscription intended to be present in the left-hand marginal sheet selvage NEVER INTENDED TO BE SEEN ON THE STAMP was pulled over into/onto this stamp. In 50 years, we have never seen this before on a KEVII high value stamp ... however we are reminded of the manuscript watermarks upon the Queen Victoria 'bantam' ½d's of 1870. Originally the EDVII 'square' high values were printed in sheets of 56 so a few more left-hand marginal examples must have originally existed. Discovered after 111 years almost certainly unique today - a new UPA discovery 111 years following printing. Clearly visible to the naked eye upon the reverse, even more graphic when immersed in Prinz super-safe watermark fluid or the American produced 'Clarity' watermark fluid (neither affect the gum of mint stamps). Comparables: Compare the Somerset House Dull greyish purple 2/6d. ... scarce u.m. but available at a £1,000+ retail value. Now compare with an INVERTED WATERMARK Somerset House 2s.6d.... We cannot - None exist. Now compare against a similar but DLR printing 2s.6d INVERTED WATERMARK ... mint - a £5,000= stamp. We have not checked but this example may now be the only known Somerset House 2s.6d. watermark variety in existence. Sensational new discovery. Buy to own this unique example and research. 10312		1995 Walsall Security Printers Ltd: Subtly printed presentation folder c.460mm x 205mm housing TWELVE Original Stamp Designs in sheet/panes format, representing Worldwide locations and printed on a Chesnut 150 Rotary Gravure Press, with the exception of Venice, and Tobacco Cay, printed on a Roland Favorit litho press. A collaboration between The Royal Mail, Walsall Security Printers Ltd., and the Royal College of Art. Attributes: Barry Robinson: Design Director, The Royal Mail. Geoff Higgins: Technical Director. Walsall Security Printers Limited. Artwork by the students of the Royal College of Art's Graphic Design and Illustration departments: Although obviously more may be extant, in 50 years I have never seen another. Designs named and attributed to specific students in the marginal selvedge, these are high quality extraordinary designs printed upon gummed and perforated stamp paper. We could find nothing on the internet, maybe you can do better, but we typed search terms using the specific printed wording above. ALL TWELVE mentioned sheets are present. Condition is very fine to superb. If all sheets comprise some 50 perforated stamp units ... we're looking at up to 600 'stamp' designs comprised within the 12 sheets. The more we think about it ... this appears to be an essay to impress by Walsall Security Printers Limited, cleverly produced in collaboration with the Royal Mail and the Students of the Royal College of Art's Graphic Design and Illustration departments specifically to impress the decision-makers of the Royal Mail to direct/ increase their orders for stamps printed by Walsall. We found the date 1995 within one of the 12 sheets. Timing would appear to make sense as Walsall printed more in the ensuing period for the Royal Mail. Obviously these cannot be unique but how many were professionally produced to impress and apparently (witness the Bureau sellotape on the cardboard) the Philatelic Bureau distributed some(?) but not to collectors, and at £2 per 'stamp' or less what are these really worth - more ... or less than our original price-drop start price ? Treat Yourself for you may never see another. Magnificent. PROVENANCE UPDATE: A UPA Collector client who saw this lot offered in UPA99 e-mailed to advise >>>> I have one of these in my collection and I acquired it in June 1997 as one of the 25 winners in the Royal Mail "Bulletin 400" draw in the April issue of " British Philatelic Bulletin ". <<<< It seems that no more than x25 Editions may have existed, doubtless some 28 years attrition may have reduced extant editions perhaps even to single digits remaining in existence. 10321	MS3272	2012 QEII 2012 Diamond Jubilee MISCUT Miniature Sheet ERROR (plus normal FDC for comparison) - Note COMPLETE QEII 'Wilding' light brown 1st definitive to Right Hand Side - Plus VOID Position and Text to Left Hand Side with completely MISSING QE 'Banknote' 1st (Green). Stunning. Windsor 6th February 2012 First Day Cancel (one such cancel disguising VOID position). Interestingly, and most remarkable is the fact that it has not proven possible to find another example for sale online currently (as I type) ... however there is quite a story to how the pricing of this stunning QE Miniature Sheet error on FDC has evolved - speculation (2012) as to very low number of errors created an initial estimate of £1,000 to £2,000 ... we have seen the invoice for another example which sold for £885= but we have also found this Diamond Jubilee MISCUT ERROR on first day cover being offered for sale some time ago at £190 but SOLD out of stock as no longer available. Usually if you look hard enough something may be found but we come to the conclusion that this is a significant error of which more than ten years later more are unlikely to be discovered, upon a very popular Royal subject which when infrequently offered sells. Our client tried to obtain a number of these over a period of years until seven error FDC's plus one MS u.m. had been acquired ... which is why this stunning miscut positional error miniature sheet is launched on TUT for just £275=.		10333	2	1840 Entire with part contents(2nd page removed), bearing a very fine four margined 1d black plate 1a, lettered OJ. 17421		1941 - This should not exist. Land documents, Stamp Duty, Power of Attorney etc. are supposed to be saved for posterity ... nevertheless even in theoretically 'responsible' Countries original documents may materialise outside the confines of Central Government. We are informed that some years ago (21st Century) the Zimbabwe Govt. actually auctioned this archive material with a quantity locally purchased. We offer a small part individually lotted. It's not so much the stamps but the historical entity rolled into the famous British South Africa Company. Each document is unique ... obvious wear but fundamentally in sound collectable display condition, many may be researched and present locations 'Google-mapped'. What a remarkable way to add value and interest to a British Africa collection and so inexpensively: Incomprehensibly watermarked 'WOTSRTON (?) BOND' watermarked document: Fine S. Variousy described as 'printer's samples', otherwise as Waterlow Recess printed Plate Proofs significantly 3 to 4 years later dated signed 8/5/57 J.G.Bignell (?) colour correct (red-ringed highlighted imperfection) imperforate part-panes of the lower 2 rows (2 down 10 across) plus marginal selvedge, Imprint to finished bi-colour proofs, produced upon gummed unwatermarked paper, neatly security punched as usual. Printer annotated quantity suggests sheets of 120 stamps produced in 2 panes of 6 rows of 10 stamps. Vignette plates x two in proof colour and final olive-green colour. The whole upon gummed unwatermarked paper, usual wrinkling/paper creasing visible but not impacting overall appearance and rarity. PURCHASE LIMIT Write your purchase limit in the box. Leave blank if you do not need us to limit your spend.

If you are bidding to a budget, you can specify an overall spending limit when you bid. E.g. You can bid on items which may cost £500 if you were to win them all, but if you specify a spending limit of £300, once your spending limit has been reached you will not win any more items.

Please list your bids in order of priority (we will work down your list until we reach your limit).

4

INSTALMENTS Request to pay in instalments must be made when placing your bids. Please circle how many instalments you would like, terms as follows:

- Payment over two, three or four monthly instalments is available to clients with invoices in excess of £60.
- Four instalments are only available for invoices in excess of £250. If you win less than this, we reserve the right to reduce your instalments accordingly.
- There is no extra charge for this service but lots are only despatched upon completion of payment or subject to status (i.e. long established UPA client).

5

BID STEPS Please circle how many bid steps you want applied to your bids. Leave blank if you do not want bid steps added.

A maximum of 3 bid steps can be applied to all or some of your bids in the event of a tie. Bid steps are applied as follows...

- Bids up to £39 - bid steps are in £1 increments
- Bids between £40 and £79 - bid steps are in £2 increments
- Bids between £80 and £299 - bid steps are in £5 increments
- Bids £300 and above - bid steps are in £10 increments

If bids are still tied after bid steps have been applied, the earlier bidder takes priority. Bid early to avoid disappointment!
