2023	AUSTRIA		2003-06 324 Images: Strange how in 50 years we have never handled these fascinating 'My Brand - My Stamp' 'personalised' stamps of Austria before. With x 5 generally well-filled albums, we can't promise but all appears to be u.m. throughout - though many have selvedge folded behind … if we owned them we would probably remount them … but hardly any appear to be damaged … and online research advises that some of these SELL well … there's many many hundreds and they appear to sell for up to £2.75p each online at eBay … with the bookful of pack 'Editions' some sell for up to £20 each. Apparently high total face value too with many stamps face value 45p+ each Euro equivalent value. Many 100's including the marken value packs sheetlets of 8. Crying out for more research and reorganisation incredible range variation, subjects and themes. Estimated retail/resale price in excess of £1,500=. I doubt we willl ever handle another such lot. 324 Images Start price-drop £1,475= (5 Volumes Many 100's). HEAVY/OVERSIZE LOT - OVERSEAS SHIPPING SURCHARGE APPLIES	US6 PH	£484.80

8171	GIBRALTAR	7	1886 Ovpt on Bermuda 1s yellow brown apparantly fine used with A26 cancel but is a SPERATI FORGERY, signed in pencil Jean de Sperati on reverse. A very clever forgery created by bleaching a lower value of the series and printing the 1s on top. The paper and postmark are genuine, an optical illusion giving the effect that the black postmark is on top of the 1s 'stamp' impression whereas in fact it is the other way round. Sperati considered this to be one of his finest productions	US3 PH	£109.60

Google internet research immediately locates: George Warde Norman (1793 - 1882) Born 30 Sep 1793 in Bromley Common, Kent, England Died 1882 at about age 88 in Bromley, Kent, England. (Apparently a writer on finance), we suspect there may be more to research. The wrapper must have included something more substantial to require a strip of x 4 1d. Blacks. Thw strip itself is interesting, almost complete 4 margin - 3 being good to large margins and absent filing crease. We suspect the strip has been lifted at some stage perhaps to test removal / reduction of red maltese cross cancels with P-I & P-L good to huge margins. Further research justified. What is the connection between Doncaster and George Warde Norman? Intense black strips of 4 (re-married to original wrapper) must be exceptionally rare. Bearing in mind that a 1d. Black block of 4 off cover catalogues £18,000 we would respectfully suggest that this strip on wrapper may command similar catalogue value. Research could not locate a similar standard entire/wrapper for sale. Consequently, whoever acquires this valuable wrapper may continue research as part of the story. Obviously UNIQUE. 8957	GREAT BRITAIN - QV (LINE ENGRAVED)	8 Var PL118	1841 QV 1d. Red-brown Plate 118. Superb unused bottom left-hand corner marginal imperforate imprimatur lettered T-A, showing part inscription and plate number '118'. Gibbons retail card accompanies, priced at £6,000=. The significance of an imprimatur in stamp collecting is the very first sheet of stamps printed from a new, approved printing plate. Derived from the Latin word for 'let it be printed', these sheets serve as official physical records and colour proofs before a stamp is printed for public service. Typically imprimaturs realise between £500 to £1,000. Gibbons SG specialised 1st edition - November 2020 prices imprimaturs from £900 (pp155). By their nature all imprimaturs are unique, however the top-left, and in this instance the bottom left (S.W.) position letters T-A (Page 224 details stamps removed from the imprimatur sheet includes T-A PL118) bear the proving Plate number, and marginal inscription. Naturally, proving plate examples are unique and potentially x 10 to x 20 times rarer. Accordingly Gibbons, not unreasonably priced this rare piece (Ex. Clark collection 1946) at £6,000. What price today. Rare. Unique (Provenance Clark. SG. UPA)	PH	£2400.00

A worthwhile example, for the simple reason that although an excellent spacefiller because this stamp has been extensively expertly re-built … the cobalt colour remains undisputed … thereby an excellent space-filler, all the more so because the cobalt shade is easy to determine by virtue of the open-profile cancel framing the central vignette. Even spacefillers command respectable money on 'cobalts' … and with the determining 2020 BPA certificate included … at perhaps lower than 8% cat value … makes this an excellent budget-buy. (1v. 10334	GREAT BRITAIN - COVERS - KGV	432/433	1925 218 images: TWO VOLUME 1925 WEMBLEY Unique Philatelic & Social History Collection. I'm not going to say too much about this collection because, I think the 218 images should tell the story. Although I cannot recall seeing anything that specifically reveals the originator … to my mind this collection was painstakingly put together, card by card, by a British War Veteran, possibly disabled. The clues are there, and perhaps more to be deduced … The addresses vary, just how was the collection put together. Then there's the strong patriotic messages, copious articles/clippings/images on the reverse of the cards … Generally fine to very fine. As you know the 1925 is the much better/scarcer Wembley Series, and these are popular amongst the 'Exhibitions' collecting fraternity … I think I worked it out at something like £11.50 a card at the full GBP£3,750= starting price … but I may be wrong. Worth checking for even though £3,750= is a lot of money … this does not feel expensive … View ALL 218 images (2 Volumes) HEAVY/OVERSIZE LOT - OVERSEAS SHIPPING SURCHARGE APPLIES	US2 PH	£2349.60

17783	RHODESIA AND NYASALAND	(13)	1954-56 UNIQUE: Stanley Gibbons doesn't say so - their 'biblically' important 'Part 1' British Empire and Commonwealth catalogue states otherwise (1954-56), but was there a 2nd printing of the commonly used 5/- violet and olive-green? Variously described as 'printer's samples', otherwise as Waterlow Recess printed Plate Proofs significantly 3 to 4 years later dated signed 8/5/57 J.G.Bignell (?) colour correct (red-ringed highlighted imperfection) imperforate part-panes of the lower 2 rows (2 down 10 across) plus marginal selvedge, Imprint to finished bi-colour proofs, produced upon gummed unwatermarked paper, neatly security punched as usual. Printer annotated quantity suggests sheets of 120 stamps produced in 2 panes of 6 rows of 10 stamps. The 'Vignette' plate (2 imperfections highlighted) similarly signed 21/2/58 within living memory suggesting 750 pulls of 120 stamps in 2 panes of 60. Negligible imperfections EXHIBITION Status. Vignette plates x two in proof colour and final olive-green colour. The whole upon gummed unwatermarked paper, usual wrinkling/paper creasing visible but not impacting overall appearance and rarity.
