For these experiments new test material in the form of booklets was needed and these were produced with labels either with or without an overprint of a bar. These labels were on unwatermarked paper, and with the exception of the overprint when this was used, have no other printing (stampboards.com 30/10/2009). Here we have an empty booklet with 'Electrical Machine Dummy Booklet for test purposes only' on the cover, printed in grey ink, with no printers name (unlike other booklets).
